TÉRMINO	DEFINICIÓN-INGLÉS
La bicicleta	A bicycle is a two-wheeled vehicle that is propelled by human power using pedals. It is one of the simplest, most environmentally friendly, and economical means of transportation in the world.
Volcán	A volcano is an opening in the Earth's crust through which lava, ash, gases, and hot rocks are expelled from the Earth's interior.
Trilogía Volcánica	The “volcanic trilogy” usually refers in Guatemala to the group of three iconic volcanoes that can be seen from Antigua Guatemala.
Senderos	A trail is a narrow path, usually natural, that people or animals can walk on. They are often found in mountains, forests, parks, farms, rural areas, and protected areas.
Suelos rocosos	Rocky soils are terrains formed by a large amount of rocks, stones, and mineral fragments.
Suelos finos	Fine soils are made up of clay and silt, very small particles that retain a lot of water. They are fertile, but can be difficult to work with if they are very wet or very dry.
Vistas impresionantes	Stunning views are landscapes or visual scenes that stand out for their beauty, altitude, breadth, or visual impact.
Paisajes	A landscape is everything we can observe in a place, whether natural or created by humans. It includes mountains, rivers, trees, buildings, roads, animals, climate, and everything that makes up the view of an environment.
Amaneceres	Sunrise is the time of day when the sun rises and the morning begins. It is when the sky transitions from the darkness of night to light shades of orange, pink, gold, blue, and violet.

TÉRMINO	DEFINICIÓN-INGLÉS
Casco para bicicleta	It is protective equipment designed to protect the cyclist's head in the event of falls, collisions, or impacts. Its main function is to reduce the risk of injury.
Lentes oscuros de protección	They are glasses designed to protect the eyes from intense sunlight, dust, wind, and objects that could cause damage.
Pachón de hidratación	Reusable bottle designed to carry water or other beverages and stay hydrated while cycling.
kit de emergencias	An emergency kit is a set of essential items that are stored in a backpack and are used for unexpected situations such as accidents.
Parche para llantas.	They are part of any cyclist's basic kit, as they allow you to repair a flat tire without having to replace the entire inner tube.
Inflador	It is a pump designed to inflate bicycle tires. It connects to the valve (Presta or Schrader) and allows you to reach the right pressure for better pedaling performance.
Bodalo de bicicleta MTB	A model is a bicycle design suitable for each activity, such as road, track, or mountain models.
Atardeceders	They are one of the most impressive natural spectacles that exist. The combination of altitude, silence, pure air, and open views makes the light appear more intense and changeable.
Competencias Ciclisticas	These are organized sporting events where cyclists compete in speed, endurance, technical skill, or performance on different terrains.
